

Kronzilla DX (known in the US as MKII version)

Dual Mono-block Amplifier. 100 + 100 Watts RMS

As of January 2011, the new versions all have:

- a) new power supply
- b) improved power transformers
- c) better frequency response
- d) better signal noise ratio
- e) better output transformer

Description

single-ended tube amplifier - pure class A, zero feedback

Output Tubes

4x T1610 (Kronzilla - parallel pair per mono-block)

Output Power

2x 100W RMS (THD = 3%)

Bandwidth

20Hz - 20kHz (-3dB)

Output

4 / 8 Ohm

Input

1V RMS / 47 kOhms at 100W

Dimensions - w x h x d

38.5 x 41.5 x 55 cm (one ch.)

Weight

Approx. 37 kg (one ch.)
