

# Kronzilla SXI (known in the US as MKII version)

---

Stereo integrated tube amplifier. 50 + 50 Watts RMS

As of January 2011, the new versions all have:

- a) new power supply
- b) improved power transformers
- c) better frequency response
- d) better signal noise ratio
- e) better output transformer

<b>Description</b>	Single-ended tube amplifier - pure class A, zero feedback
<b>Output Tubes</b>	2x T1610 (Kronzilla)
<b>Output Power</b>	2x 50W RMS (THD = 3%)
<b>Bandwidth</b>	20Hz - 20kHz (-3dB)
<b>Output</b>	4 / 8 Ohm
<b>Input</b>	4x 0.75V RMS / 47 kOhms at 50W
<b>Dimensions - w x h x d</b>	38.5 x 41.5 x 55 cm
<b>Weight</b>	Approx. 50 kg
